

NIRMALA CHOUDHARY

Pune, India (open to relocation) | +91 9322730578 | nirmalachoudhary@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with hands-on expertise in SQL, Python (pandas), Power BI, Tableau, and Advanced Excel, backed by 2.5+ years of stakeholder-facing operations experience — resolving data discrepancies and communicating clearly across teams. Cleaned, validated, and analyzed 1.3M+ records to surface \$4.06B in credit-risk exposure; built executive KPI dashboards across five BI tools; shipped four end-to-end projects including a live-deployed automated reporting pipeline. Certified in Machine Learning & Deep Learning (NIT Goa). Turns ambiguous business questions into validated, decision-ready insights and clear recommendations.

SKILLS

SQL & Python: SQL (INNER/LEFT joins, multi-table joins, GROUP BY/HAVING, subqueries, window functions), Python (pandas, NumPy, OOP), SQLite

Excel: Advanced Excel — XLOOKUP, INDEX-MATCH, pivot tables and charts, analysis on 45k+ row workbooks

BI & Visualization: Power BI (Power Query, DAX, data modeling), Tableau (published to Tableau Public), Qlik Sense (Qlik Cloud), Apache Superset, IBM Cognos, Plotly, Matplotlib, KPI reporting

Statistics & Analysis: descriptive statistics, exploratory data analysis, outlier detection (IQR, z-score), data cleaning, data validation, root cause analysis

Automation & Engineering: REST API integration (JSON), automated reporting pipelines, ETL (Power Query), Streamlit (deployed live), Git/GitHub, Jupyter, pytest, Docker (basic)

Professional: stakeholder communication, requirement gathering, documentation, cross-functional collaboration, attention to detail, ownership

PROJECTS

Credit-Risk Analysis (Lending Club) | *Python, pandas, SQL, Tableau*

- Cleaned and validated 1.3M+ loan records to zero missing values, excluding 10+ data-leakage fields to build an analysis-ready dataset.
- Quantified \$4.06B (21.6%) of \$18.76B lent as at-risk exposure — default risk rising 8x across credit grades — in an interactive Tableau dashboard published to Tableau Public.

Starbucks Store Performance Dashboard | *Power BI, Power Query, DAX, SQL, Excel, Qlik*

- Engineered a Power Query ETL pipeline and DAX KPI measures across 45,000+ transactions to track revenue, footfall, and store performance; validated results independently with SQL.
- Diagnosed a revenue decline to 2 of 5 stores — an 8% price rise masking a 12% footfall drop — and delivered 3 data-driven recommendations; reproduced the analysis in Qlik Cloud Analytics.

Remote Job Market Analyzer | *Python, REST API, pandas, Streamlit (deployed live)*

- Automated a live reporting pipeline ingesting real-time API data, reducing manual data pulls to zero and refreshing interactive dashboards on demand.

EXPERIENCE

Administrative Assistant | **AV Corder** | **Pune** | **Jun 2025 – Aug 2025**

- Streamlined scheduling and documentation across 20+ recurring weekly tasks, maintaining 100% record accuracy, and resolved data discrepancies with stakeholders.

Barista | **Starbucks India** | **Pune** | **Dec 2022 – Jun 2025**

- Processed 100+ transactions per shift with 100% cash-handling accuracy in a fast-paced environment, and trained 3+ new team members on service standards.

EDUCATION

Bachelor of Computer Applications (BCA) | Dr. Vishwanath Karad MIT World Peace University, Pune

CERTIFICATIONS

Machine Learning & Deep Learning — NIT Goa | Data Analytics Job Simulation — Deloitte | Data Visualization with Excel & IBM Cognos — edX (IBM) | Gemini AI for Students — Google
