

NIRMALA CHOUDHARY

Data Analyst · Power BI · SQL · Python · Data Visualization

nirmalachoudharyu@gmail.com · +91 9322730578 · Pune, India · github.com/nikita1-pixel · linkedin.com/in/nirmalachoudharyou

SUMMARY

Self-taught Data Analyst and BCA graduate (2026) who learns by building. I take data from raw to decision — pulling it via **REST APIs**, querying in **SQL**, cleaning and analyzing with **Python/pandas**, and turning it into clear, decision-ready **Power BI dashboards and case studies**. I built and deployed a live job-market analytics web app and two end-to-end Power BI case studies on 45,000+ and 10,000+ records. Driven by the *why* behind every number and always sharpening my craft. Backed by 2.5 years in fast-paced, customer-facing work that built strong communication and business sense. Completed the Deloitte Data Analytics Job Simulation.

TECHNICAL SKILLS

Business Intelligence: Power BI (Power Query ETL, DAX, dimensional modeling / star schema, conditional formatting, KPI dashboards), Microsoft Excel (pivot tables, charts), IBM Cognos

Languages & Analysis: Python, pandas, SQL (INNER/LEFT joins, multi-table chain joins, GROUP BY, HAVING, subqueries, window functions), EDA, data cleaning

Visualization: Matplotlib, Plotly, Streamlit (interactive dashboards), Jupyter

Statistics: descriptive stats (mean/median, standard deviation), outlier detection (IQR, z-score)

Tools: Git/GitHub, REST APIs (requests, JSON), virtual environments, pytest, PEP 8

Soft Skills: clear written & verbal communication, attention to detail & accuracy, stakeholder collaboration, problem-solving, adaptability, integrity, eagerness to learn

PROJECTS

Lending Club Credit-Risk Analysis · Python · pandas · Tableau

- Cleaned and analyzed **1.3M+ real loan records** (Lending Club, 2007–2018) in Python/pandas — fixed data types, repaired a corrupted field, and handled missing & invalid records to build an analysis-ready dataset
- Found default risk rises **8× across credit grades** (6%→50%) and that **\$4.06B (21.6%)** of \$18.76B lent sits in defaulted loans; built an interactive **Tableau dashboard** with KPI cards and risk by grade, term & purpose

Dashboard: public.tableau.com/app/profile/nirmala.choudhary · github.com/nikita1-pixel/lending-club-credit-risk

Remote Job Market Analyzer · Python · REST API · pandas · Plotly · Streamlit (Deployed Live)

- Built and **deployed a live interactive web dashboard** that pulls real-time remote-job data from the Remote REST API, processes it with pandas, and visualizes hiring trends with Plotly — with KPI cards, filters, a clickable jobs table, and CSV export

Live: remote-job-market-analyzer.streamlit.app · github.com/nikita1-pixel/remote-job-market-analyzer

Starbucks Store Performance Dashboard · Power BI · Power Query · DAX

- Analyzed **45,000+ transactions** to investigate a regional sales decline; built a Power Query ETL pipeline and DAX measures (CALCULATE, DISTINCTCOUNT, DIVIDE) for year-over-year revenue, units & footfall
- Diagnosed the decline was **concentrated in 2 of 5 stores** and that an 8% price hike masked a ~12% drop in visits; delivered 3 targeted recommendations with conditional-formatted visuals

EXPERIENCE

Administrative Assistant — AV Corder

Jun 2025 – Aug 2025 · Pune

- Managed daily administrative operations including scheduling, documentation, and accurate record-keeping
- Supported the digital marketing team with design and content tasks

Barista — Starbucks India

Dec 2022 – Jun 2025 · Pune

- Processed high volumes of customer transactions on the POS system with accuracy and speed in a fast-paced environment
- Trained and onboarded new team members on preparation standards and service procedures
- Adapted to varied customer needs, consistently maintaining high satisfaction and service quality

CERTIFICATIONS

- Data Analytics Job Simulation** — Deloitte
- Data Visualization & Dashboard Building with Excel and IBM Cognos** — edX (IBM-backed)
- Machine Learning & Deep Learning** — NIT Goa · **Gemini AI for Students** — Google

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

Dr. Vishwanath Karad MIT World Peace University, Pune
